Career objective

A motivated and detail-oriented engineering student seeking an entry-level software development role where strong knowledge of Java, Data Structures, and problem-solving skills can be applied to build efficient and scalable applications. Eager to learn new technologies, contribute to organizational success, and continuously enhance technical and professional abilities.

Education

Rathinam Technical Campus. <i>Bachelor of Engineering - Mechanical Engineering</i> CGPA: 8.0/10.	2023–Present Coimbatore
Sri V.D.S Jain Hr.sec.School HSC - 72.	2023 Tiruvannamalai
Bhagavan hr.sec.school SSLC - 100.	2023 Tiruvannamalai

Skills

Programming

Java, Basic Data Structure and Algorithms(DSA), OOPS.

Soft skills

Problem Solving, Leadership, Team management, communication, verbal.

Projects

Vehicle Maintenance Prediction System

- Built a frontend-based system to track service schedules and predict maintenance needs.
- Developed responsive UI using HTML, CSS, and implemented logic with JavaScript.
- Improved prediction accuracy using basic algorithms and data analysis.

Real-Time Chat Web Application

- Developed a full-stack real-time chat application with user authentication and instant messaging.
- Used HTML, CSS, JavaScript for frontend, Spring Boot for backend, and MySQL for database management.
- Designed a responsive interface with efficient multi-user communication support.

Certifications

- Programming in Java - NPTEL (91%).
- Algorithmic graph theory and data structures - NPTEL.
- Design Thinking for Innovations - Coursera.
